

Inclusion North Members Day Feedback

We asked all our members what they thought about our Members Day. Here is what everyone said:

What did you like about today?

- It was well planned
- Sam's presentation
- Everyone was really friendly
- Good lively presentations
- Inclusive working
- A good day
- We got to learn lots about initiatives in other areas and find out what's happening across our regions
- Lots of people enjoyed the food!
- We had lots of opportunities to talk to people from other Partnership Boards in our regions
- It was nice to know we are all facing some challenges and themes are emerging for everyone
- Friendly, relaxed but purposeful atmosphere
- Good questions and prompts to think about
- We enjoyed networking with other people and sharing information with other areas
- The venue was excellent – it was light and bright
- Our new staff found the information easy to understand
- We liked giving feedback to Inclusion North
- It kept to time and it was fun
- Gary's presentation was fab!
- We liked the regional focus
- We liked the stationery

What did you not like about today?

- Queue too slow at lunchtime
- No water on tables
- Vegetarian food ran out very quickly – we need more vegetarian options
- No table introductions
- Drinks area quite tight with the two tables
- Should have had bigger tables
- We want more moving around to different tables so we can mix with people from more than one other place
- Too much group work – group could have been mixed by moving people around on day
- No diabetic friendly pudding

Anything else?

- Does every region have a local website? Can we list them to see what each of us is doing?
- Have you any ideas on how we can stop the same scenario of staff leaving events early and service users missing out?
- Suggestion: Case studies and presentations from members on how Inclusion North has supported change in their area
- Can we have a brief outline of the day from all regions?
- Another time: Could each area choose one of the key areas of work that they are doing really well on and make a poster presentation about what they do plus contact details so we can share more best practice ideas?
- Can the presentations from today be emailed to all the members so that they can be shared accurately?
